

Windows Server Active Directory

Moran Technology Consulting is a premier provider of management and technical consulting services to higher education. We are uniquely qualified to assist our clients with Active Directory assessments, design, upgrades and consolidations based upon our:

- Experience leading *assessments, design, implementation and migration projects for Active Directory* in higher education;
- Providing unmatched *technical expertise in Windows Sever Active Directory*;
- Proven *collaborative approach* to developing designs, security models, best practices, and governance structures across distributed IT environments.

Our Microsoft Solutions practice is led by, Brian Desmond nine-time **Microsoft MVP** and author of O'Reilly's Active Directory, 4th Edition.

We offer a full range of consulting services to assist our clients in planning, designing and implementing secure, effective and reliable Active Directory solutions.
