

## Higher-Ed Optimized IAM Implementations

Having worked with nearly three hundred (300) colleges and universities, Moran Technology Consulting (MTC) is uniquely qualified to assist our clients with IAM implementations. Based upon our extensive experience, we have developed the optima IAM implementation methodology for higher education.

community

### Optima Higher-Ed IAM Deployment

- Incorporates higher-ed's complex lifecycle management requirements
- Standardizes and simplifies IAM design and deployment
- Is Policy driven
- Reduces time, risks, and costs
- Empowers clients to own and maintain IAM policy configurations

#### Higher Education IAM Clients

- Calvin University
- Chapman University
- California State University Bakersfield
- Davidson College
- Duquesne University
- Harvey Mudd College
- Memorial University Newfoundland
- Pomona College
- San Diego State University
- San Francisco State University
- The Claremont Colleges
- University of California San Diego
- University of California San Francisco
- University of North Carolina Greensboro
- University of Southern Mississippi
- Victoria University Wellington
- Virginia Community College System

#### ➤ Clearly Defined Scope

Optima implementations begin with a clearly defined and fixed scope of services for the initial IGA deployment focused on standard sources, targets, affiliations, attributes, and IGA services

#### Optima IAM Implementation Services Scope

Fixed # of source(s) of authoritative identity data	1
Standardized integration templates (SoA to IGA)	1
Set # unique affiliations/roles	5
<i>Each unique affiliation is defined by a shared lifecycle policy for create, enable, notify, disable, and delete actions as well as common birthright entitlements.</i>	
Targets for identity and access fulfillment	4
Standard attribute mapping to targets with limited # of data transformations	4
Standard configuration for IGA services, such as:	
Unique Account Claim policies	2
Unique Password Management policies	2
Automated/delegated groups managed	5
Unique guest/affiliate policies	1
# of tiers for delegating IGA administrative access	3

Helping transform the

higher education

OPTIMA LIFECYCLE POLICY	AFFILIATION		Affiliation Priority		Username Convention	Email Convention		
		Student		3	Student	Student		
Targets	Provisioning				Deprovisioning			
	CREATE Days From Start Date	ENABLE Days From Start Date	NOTIFY Days From Start Date	BIRTHRIGHT SECURITY GROUP	NOTIFY Days from End Date	DISABLE Days from End Date	DELETE Days from End Date	OU SECURITY GROUP
Meta	-365	-90	-90	ou=people student	-30	0	90	ou=people alumni
Active Directory	-90	-90		ou=people student				ou=inactive alumni
LDAP	-90	-90		ou=people student				
Azure/M365	-90	-90		student				alumni
Google Workspace	-90	-90		student				

#### ➤ Project Management

MTC enables the optima IAM deployments with proven communications, testing, and deployment methods as well as project controls.

#### ➤ Lifecycle Management Policy

The optima IGA implementation methodology utilizes standard lifecycle policy templates that simplify the initial deployment while providing clients the ability to easily deploy, manage, and modify policies to meet their unique requirements

## Higher-Ed Optimized IAM Implementations

Our approach is collaborative. *We consult with you and not at you, using proven methodologies to provide pragmatic recommendations that fit your requirements, budget, and culture.*

We have worked with nearly three hundred (300) universities and colleges and are proud to invest in and partner with organizations that help higher education institutions to address the tactical and strategic issues that they face. Our partnerships and sponsorship investments include:

MTC and Cirrus Identity partner to support higher education and research institutions' efforts to improve their identity and access management programs. Cirrus Identity offers innovative cloud identity management solutions – the Swiss army knife of cloud hosted tools for secure login.

MTC is proud to be a Gold Corporate Partner of EDUCAUSE. This group is focused on advancing higher education through the use of information technology.

MTC is a corporate member of Internet2 and Catalysts member. The Catalysts support community efforts to improve identity and access management for research and higher education.

<https://incommon.org/community/catalyst/>

As the premier partner of Identity Automation for higher education our identity consultants partner with Identity Automation's technical services, product, and support teams to implement complex identity governance solutions for higher education.

MTC is a founding corporate member of IDPro. IDPro exists to globally foster ethics and excellence in the practice and profession of digital identity. For more information see: [www.idpro.org](http://www.idpro.org)

Based upon our skills, experience, and customer references, MTC is a Microsoft Silver Partner for Cloud Productivity. We leverage years of experience designing and implementing Microsoft Identity solutions.

MTC consultants leverage years of experience designing and implementing identity governance solutions to deploy SailPoint's industry leading and native cloud (SaaS) identity governance solution - SailPoint IdentityNow.
