

## Identity Focused Information Security

Moran Technology Consulting is a premier provider of management and technical consulting services to higher education. Having worked with nearly three hundred (300) colleges and universities, we are uniquely qualified to assist our clients to build mature information security management and compliance programs.

Our *virtual and interim Information Security Officers (vCISO)* and *Compliance Officers* draw on their deep knowledge and experience implementing information security and compliance programs for higher education organizations to:

- Develop and implement IT Security programs and governance structures;
- Implement or expand IT Security awareness and training;
- Expand and improve IT security and compliance policies, processes and procedures.

### What We Do

- Cybersecurity Assessments:
  - Governance, Awareness, Policy and Processes
  - Vulnerability and Penetration Testing
- Virtual CISO and Compliance Officers
- IAM Strategic Planning and Roadmaps
- Enterprise Directory Security Assessments, Secure Design, and Consolidations

### Benefits

- Jump-start information security and compliance programs
- Reduce institutional risks
- Improve security posture, awareness and compliance

## Identity Focused Information Security

Our approach is collaborative. *We consult with you and not at you, using proven methodologies to provide pragmatic recommendations that fit your requirements, budget, and culture.*

We have worked with nearly three hundred (300) universities and colleges and are proud to invest in and partner with organizations that help higher education institutions to address the tactical and strategic issues that they face. Our partnerships and sponsorship investments include:

MTC and Cirrus Identity partner to support higher education and research institutions' efforts to improve their identity and access management programs. Cirrus Identity offers innovative cloud identity management solutions – the Swiss army knife of cloud hosted tools for secure login.

MTC is proud to be a Gold Corporate Partner of EDUCAUSE. This group is focused on advancing higher education through the use of information technology.

MTC is a corporate member of Internet2 and Catalysts member. The Catalysts support community efforts to improve identity and access management for research and higher education.

As the premier partner of Identity Automation for higher education our identity consultants partner with Identity Automation's technical services, product, and support teams to implement complex identity governance solutions for higher education.

MTC is a founding corporate member of IDPro. IDPro exists to globally foster ethics and excellence in the practice and profession of digital identity. For more information see: [www.idpro.org](http://www.idpro.org)

Based upon our skills, experience, and customer references, MTC is a Microsoft Silver Partner for Cloud Productivity. We leverage years of experience designing and implementing Microsoft Identity solutions.

MTC consultants leverage years of experience designing and implementing identity governance solutions to deploy SailPoint's industry leading and native cloud (SaaS) identity governance solution - SailPoint IdentityNow.
